

What dissuades?

20:20 • always want to do NM proj. tired of wrtg all these projects... they're fun

20:20 ↓ think the only thing that would dissuade me was if I didn't know the SW at all...

web pg — don't feel confident at all  
PS — all for it.

20:50 ↓ would have to see in the syllabus if the instructor was taking time to teach the SW and I would have to get a sense of what the teach was expecting.

Expectations

EXPERIMENTATION  
RISK TAKING

21:12 I would <sup>see</sup> teach was OK w/ experimentation was more lenient w/ the product as far as understanding if tech diff. sound file has buzzing in bkgnd...

GRADE

[21:46]

knowing they were doing NM proj. I would assume they are more lenient whereas w/ written — know they wouldn't tolerate grammatical errors... things like that

EXPERIMENTATION

[22:04]

↓ if I got the sense teach was leg but really strong argument but not OK w/ experimentation I'd stay away from it...
